# DARE TO DREAM

---

Dear Friends,

Can we dare to dream of a world where cancer is no longer feared? Where it's a disease that has a cure? Where the majority are survivors, not victims. Yes, we can. The Indian Cancer Society with renewed vigour and zeal is striving to turn this dream into a reality.

As India's most respected NGO in the cancer space for the past 65 years, we play an active role in creating awareness and encouraging early detection among the masses. Facilitating cure, rehabilitation for the underprivileged patients and offering support to survivors has always been our area of focus.

It is time now to scale up our activities, set new goals for 2020. A national footprint should see us manning 100 mobile detection vans throughout the country creating cancer awareness through films developed on key cancers in the regional languages and providing early detection at your doorstep. The youth of our country must lead the change of mindset towards this dreaded disease through social media and events. Raising Rs 100 crores for disbursement through the Cancer Cure Fund will make the life-saving treatment available to many of those who simply cannot afford it.

To this end, in the past one year, we have produced 4 films in 7 languages raising awareness and encouraging early detection. Students, young professionals and matinee idols - Varun Dhawan and John Abraham - have been enrolled to be part of our mission. CSR funding has enabled us to add a new state-of-the-art detection van, currently under fabrication, to increase our reach in the rural areas.

To further increase the impact of our Cancer Cure Fund in collaboration with HDFC AMC, we have added 7 hospitals to our empanelled list, which now totals 14 across India. Since its establishment in 2011 we have sanctioned Rs 26 crores, to fund the treatment of 1720 cancer patients. We have now nearly quadrupled our disbursements with the enhanced new fund and CSR support from HDFC. In fact, this dimension of the ICS success story has evoked a Harvard Business School case study. A special paper on the fund was presented at the last World Cancer Congress held in Australia, in December 2014, by our Medical Director, Dr Purvish Parikh. ICS has also reorganized its operating structure by identifying 4 core areas – Awareness & Detection, Cancer Cure, Cancer Registry responsible for research and knowledge, and Rehabilitation and Survivorship, which includes the Ugam Foundation – a group of childhood cancer survivors.

Integrated planning and execution with our Branches is key to help realize this dream. Towards this end, the 2<sup>nd</sup> edition of "ICS ONE" being held in November 2015, will help amalgamate all our efforts into one single tide.

The need of the hour, is to come together from all walks of life, pool in our resources to battle this disease and emerge victorious. We seek active support and assistance from individual donors, trusts, the corporate world, medical fraternity, hospitals, the government, health ministry, well-wishers, stakeholders and all related NGOs to help scale-up our activities.

The next 5 years will help ICS take the giant leap to realize this dream.

## ABOUT INDIAN CANCER SOCIETY

---

Indian Cancer Society was established in 1951 by Dr. D.J. Jussawalla and Mr. Naval Tata as India's first voluntary, non-profit, National Organization for Awareness, Detection, Cure and Survivorship of those affected with this disease.

Indian Cancer Society has been doing sterling work in fighting cancer across India. It has been and continues to be the beacon of hope for thousands of our poor cancer affected brethren. The extent of help required is phenomenal. Most of the patients come to us from all over the country and can't afford two meals a day. In such cases undergoing treatment is beyond their capacity. The society is entirely dependent on public support for its various activities concerned with financing the treatment and rehabilitation of cancer patients and for spreading the cancer awareness and its early detection.

### Activities

- Creating nationwide awareness of cancer, its risk factors, preventive measures, treatment options, survivorship, and encouraging regular checkups as cancer can be cured if detected early.
- Providing for the early detection of cancer through cancer detection centers and mobile cancer detection camps across India, especially for the underprivileged.
- Providing funds for the treatment of cancer for poor cancer patients across India
- Providing support during and after treatment to poor cancer patients through accommodation, rehabilitation, and survivor support groups.
- Gathering and collating data through the population based cancer registry for Mumbai, Pune, Nagpur and Aurangabad (ICS is the only NGO to run a cancer registry), and providing analytic and projected reports on the incidence of cancer.
- Providing a medium for the dissemination of information and research findings to the medical fraternity through the Indian Journal of Cancer.

# REPORT FOR 2014-15

## CANCER AWARENESS

**Our mission:** To create awareness that cancer is preventable and curable

Indian Cancer Society conducts cancer awareness camps in school, colleges, corporate offices, slum and rural areas on a pan India level. Since 1951, ICS has touched over 7 lakh people with over 5500 awareness camps and events.

At these camps, a trained ICS representative presents short films on various cancers like cervical, breast, oral and lung. In an interesting, easy to understand and friendly manner, the films explain what is cancer, its types, causes, symptoms and the lifestyle changes to protect oneself against cancer. These camps are done at a minimal cost.

<i>Cancer Awareness Lectures</i>	<b>: 167</b>
<i>Beneficiaries</i>	<b>: 9593</b>

Awareness lecture for street children

Awareness lecture in a corporate

World No Tobacco Day celebrated at Nariman Point, Mumbai on 31<sup>st</sup> May 2014

## RELAY FOR LIFE

Relay For Life is a community sensitization program, where we make the community aware about cancer, its early detection and prevention. It is also a community based fundraising event; to raise the much needed funds for underprivileged cancer patients.

The Relay For Life teams, camp out overnight and take turns walking or running around a track or path at a local high school, a park or a ground. Events are 24 hours long, and since, Cancer never sleeps, each team is asked to have at least one participant on the track, during the entire event.

Relay For Life comprises of an opening ceremony, followed by the survivors lap, the Luminaria ceremony and the closing ceremony. The emotionally charged luminaria ceremony remembers those lost to cancer.

The funds raised during this event certainly make a difference in a cancer patient's life.

Relays were held at Oberoi International School, Goregaon (E) on 24<sup>th</sup> and 25<sup>th</sup> January 2015, and at Ecole Mondiale World School, Juhu on 27<sup>th</sup> March 2015.

<i>Relays</i>	: 2
<i>Participants</i>	: 330
<i>Funds collected</i>	: Rs. 20 lakhs

## CANCER DETECTION

---

**Our mission:** To facilitate the early detection of cancer

Indian Cancer Society strongly believes that “Cancer is curable, when detected early.” Awareness followed by early detection improves the chances of battling this dreaded disease. Early diagnosis of cancer has been the core objective of our Mobile Cancer Detection Camps and the Cancer Detection Centre at Peddar Road.

### Mobile Cancer Detection Camps

---

In 1982, Indian Cancer Society launched its first Mobile Cancer Screening and detection camp to provide people with easy access to cancer checkup facilities at a nominal cost.

<i>Camps</i>	<b>: 251</b>
<i>People touched</i>	<b>: 13757</b>
<i>Cases for further investigation</i>	<b>: 408</b>
<i>Cases found to be cancerous</i>	<b>: 15</b>

**Our Mobile Detection Vans**

### Cancer Detection Centre, Peddar Road

---

The M.D. Thackersey Cancer Detection Centre was set up by Indian Cancer Society to provide facilities for the public and is the only prevention centre of the Indian Cancer Society functioning since the year 1978.

<i>People touched</i>	<b>: 1130</b>
<i>Cases for further investigation</i>	<b>: 142</b>
<i>Funds collected</i> <i>(by giving booklets to the donors printed by one of the clients)</i>	<b>: Rs. 1.65 L</b>
<i>Sale of materials prepared by Cancer Patients and Survivors</i>	<b>: Rs. 95,749</b>

# CANCER CURE

**Our mission:** To offer emotional support and medical aid to cancer patient

## Cancer Cure Fund

Cancer Cure Fund (CCF) is the flagship project of Indian Cancer Society (ICS) which provides financial aid for treatment of needy cancer patients. Cancer is curable, if detected early and treated in time. However, most patients in India with cancer are not able to afford the treatment costs and therefore do not survive the disease. This project provides financial aid up to Rs. 4 lacs to each cancer patient to undergo treatment and emerge as a victor. CCF has transformed lives of over 1300 needy cancer patients across the country, many of whom have completed their treatment and returned to a productive life again. ICS has implemented this at a pan India level covering over 25 states. We are pleased to report that 80% of the beneficiaries are less than 30 years of age, which means more birthdays to be celebrated!

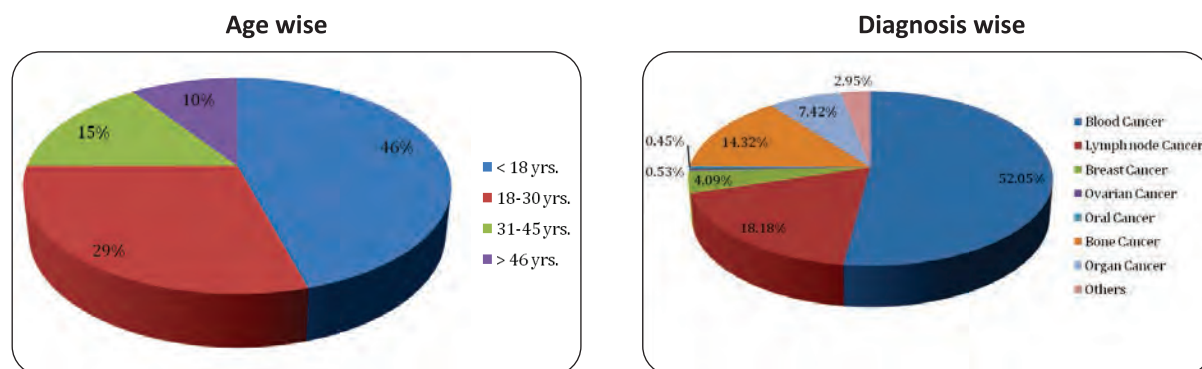

CCF was initiated in February 2011 as a joint initiative with HDFC AMC, where in a close-ended capital protection oriented income scheme called 'HDFC Debt Fund for Cancer Cure' was launched. This scheme provided the investors an option to donate 50% or 100% of their dividend income from the fund to ICS to provide financial assistance to the needy cancer patients for their treatment. The money raised through the donation of dividend income by unit holders of this fund was utilized by ICS to fund the treatment costs of needy cancer patients under Indian Cancer Society - Cancer Cure Fund.

In FY 2014-15, CCF has received donations aggregating Rs. 9.24 crores from over 2500 investors. Further, HDFC AMC has contributed a topping donation of Rs. 5 crores.

ICS is grateful to each of those **2500** investors of this fund who have donated their income to ICS and have helped transform the lives of these patients through CCF. ICS would also like to place on record its gratitude to HDFC AMC for launching this unique product that has enabled ICS to raise the funds required for this project.

Total donations received till 31 <sup>st</sup> March, 2015	: Rs. 27.46 crores
Total amount sanctioned till March 31 <sup>st</sup> , 2015	: Rs. 34.82 crores for 1320 patients

- Analysis of patients benefitted through ICCF from November 2011 to March 2015**

## Empanelled Hospitals

1. BKL Walawalkar Hospital, Chiplun
2. Cancer Institute, Adyar, Chennai
3. Christian Medical College, Vellore
4. Gujarat Cancer and Research Institute, Ahmedabad
5. Indo American Cancer Hospital and Research Institute, Hyderabad
6. Kailash Cancer Hospital, Goraj, Vadodara
7. Mazumdar Shaw Medical Centre, Bangalore
8. Patel Hospital, Jalandhar
9. Rajiv Gandhi Cancer and Research Institute, New Delhi
10. Regional Cancer Centre, Trivandrum
11. Shere-e-Kashmir Institute of Medical Science, Srinagar
12. SMS Hospital, Jaipur
13. Tata Medical Centre, Kolkata
14. Tata Memorial Hospital, Mumbai

### Dr. Arun Kurkure Treatment Initiation Fund

Dr. Arun Kurkure Treatment Initiation Fund is aimed at poor patients who are unable to afford the initial costs of diagnosis and help in covering certain part of their treatment. Any patient from a government hospital can take benefit of this fund. An amount of Rs. 15,000/- is given to the hospital so that the patient can undergo all the required initial tests at the hospital for their diagnosis.

<i>People touched</i>	<b>: 84</b>
<i>Total amount sanctioned</i>	<b>: Rs. 15,32,692</b>

### General Financial Aid for Treatment

Poor patients who need additional aid for their treatment are further given an amount of Rs.10,000/-. This amount is given after completion of the due diligence process done by our social workers. We hope that by funding a part of the treatment, it will enable the patient to seek other funding resources.

<i>People touched</i>	<b>: 967</b>
<i>Total amount sanctioned</i>	<b>: Rs. 80,18,732</b>

### Sir Ratan Tata Trust

In December 2009, Sir Ratan Tata Trust magnanimously offered to assist Indian Cancer Society in its efforts of providing financial aid to the underprivileged cancer patients undergoing treatment at the Tata Memorial Hospital & the Bai Jerbai Wadia Hospital.

Under this project, Indian Cancer Society along with SRTT, funds part or the entire treatment cost of 7 cancer patients each month. The patient applications are thoroughly scrutinized by Indian Cancer Society's medical social workers in accordance with the strict guidelines laid down by SRTT and then send them to SRTT for evaluation and acceptance.

<i>People touched</i>	<b>: 19</b>
<i>Total amount sanctioned</i>	<b>: Rs. 20,60,000</b>

## Meet a few of our patients...

**Rajib Malik**

Rajib Malik never had an easy life. He lost his father when just 2. His mother a labourer in Kolkata, earned less than Rs. 24,000/- a year. When Rajib was in 8th, he developed a swelling on his body. The local practitioner suspected it to be cancer and advised his mother to take him to Tata Memorial Hospital (TMH), Mumbai.

With little money in hand, Rajib's mother came to Mumbai and got him registered and admitted in TMH. Rajib was diagnosed with Rabhdomyosarcoma, a cancer made up of cells that normally develop into skeletal muscles. Rajib's family had exhausted all their money and was helpless in completing their son's treatment. After a thorough due diligence, ICCF sanctioned Rs.2.5 lacs for Rajib's treatment.

The treatment took almost a year by the end of which Rajib was back on his feet! Rajib, now 21, lives in Jaipur and has learnt the skills of a goldsmith. He is working with a jeweler in Jaipur, and earns Rs. 6000/- every month and sends money to his mother who continues to live in Kolkata with her daughter.

It has been nearly 2 years now that Rajib is on his follow ups. He believes that ICS CCF has given him a new life! But we know that it is not we but our generous donors who have helped us save many more lives like Rajib.

---

**Aviral Thapa**

Life can get very complex at times. Aviral's case best describes this. What sticks out most is the way his family overcame this struggle successfully. Aviral Thapa and his family belong to Darjeeling, West Bengal. His father had health issues for a long time and has been unemployed since 2007. His mother worked in a canteen as a cook and earned Rs. 5000/- per month.

Aviral then 14, was happy with life until one day his nose started bleeding in school. After the initial basic medications, he felt better. However a few days later, he faced other problems like difficulty in opening his jaws, not being able to listen, etc. His mother took him to a specialist, where after few tests they

detected a tumor. Aviral was advised to go to Tata Medical Centre, Kolkata, where he was diagnosed with Naso Pharyngeal Carcinoma. The estimated cost for the treatment was almost Rs.3 lakhs.

At the very same time, his father was advised to undergo an immediate kidney transfer. Aviral's mother went through a very tough time where on one hand her only son had to undergo cancer treatment which would cost her 3 lakhs and on the other, her husband was advised a kidney transplant in another hospital in Kolkata. There was no way she could manage both these costs. This is when she came to know that ICCF had sanctioned the treatment cost for Aviral. She was in tears and didn't know whom to thank. It was a huge relief to her as this gave her hope for her son's recovery. She was sure that she could somehow bear the cost of her husband's treatment.

Aviral successfully completed his treatment in 4 months and is now on his follow up for the last 7 months at TMC, Kolkata. Post his treatment he rejoined his 9th standard and will be appearing for his 10th exam next year. They say difficulty comes from all sides and Aviral's mother can best describe this.

---

## Stakeholder Speaks...

---

“The Christian Medical College, Vellore has been striving to provide excellent, affordable care to patients who come from all over the country. Patients who come from the poorer and vulnerable strata of society are preferentially afforded the best possible treatment. Partnering with the Indian Cancer Society in providing funding for curable cancers has tremendously increased the number of such patients receiving treatment.

They go home with a satisfied smile and much gratitude, knowing that they have beaten the dreaded disease and have been looked after in the best way possible. Thank you ICS and all your donor funding partners for boosting our ability to deliver such treatments.”

**Dr. Raju Titus Chacko,  
Professor, Medical Oncology,  
Christian Medical College,  
Vellore**

---

“Cancer Institute (W.I.A) Chennai, is privileged to be associated with Indian Cancer Society (ICS). Over the last 6 decades we have strived hard to provide the state of art treatment to the underprivileged without any social or economic divide. This has been made easier by the generosity of ICS whose funding has helped us to fulfill the needs of many patients.

Over the last 3 years, the financial assistance from ICS of Rs.2.7 crores has supported 120 patients. This funding has been used for providing bone marrow transplantation, limb salvage surgery, many major surgeries, radiotherapy and chemotherapy.

The unique feature of the funding from ICS is the promptness with which the funds are released. This has helped us in treating patients without delay. We are proud to say that we have not refused “state of art treatment” to any of the patients who have come seeking help.

On behalf of all patients who have benefited from the ICS, I once again convey our profound thanks and gratitude to one and all in the ICS.”

**Dr. V. Shanta  
Chairman  
Cancer Institute, Adyar**

---

“I do not quite qualify to be called a donor though that was what I took myself to be until I saw your video. The true donors are institutions like yours whose members donate their soul and energy to reach out to the distressed on the ground. May God be with you all.”

**A.L. Narasimhan (Donor)**

---

## REHABILITATION CENTRE

---

**Our mission:** To establish and encourage cancer survivorship programmes  
To reintegrate cancer survivors back into society

The ICS Rehabilitation Centre houses workshops where patients are given vocational training according to their individual needs. They are taught mat making, tailoring, bag making and printing. For those undergoing treatment, simple jobs are given like packing, rolling and pasting. This enables them to learn new skills, earn a livelihood and work in a clean environment with a hot meal.

### Number of people who benefited through the Rehabilitation Centre

<i>Vocational Training Section - Permanent Patients (10+ years)</i>	<b>: 43</b>
<i>Vocational Training Section - New trainees</i>	<b>: 70</b>
<i>Accommodation</i>	<b>: 573</b>
<i>Education to children</i>	<b>: 29</b>
<i>Nutritive food supplements (Children)</i>	<b>: 100 per month</b>

### We are thankful to our donors and well wishers for their continued support

## Indian Cancer Society is deeply grateful to

- Rotary Club of Downtown, Rotary Club of Bombay Sea Face and Rotary Club of Bombay Peninsula for the renovation of patients' toilet block
- Mr. Subhash Vaidya for sponsoring a Mini Ambulance for our cancer patients
- The Gunvati J. Kapoor Medical Relief Charitable Foundation for the donation made for low cost accommodation for the outstation cancer patients

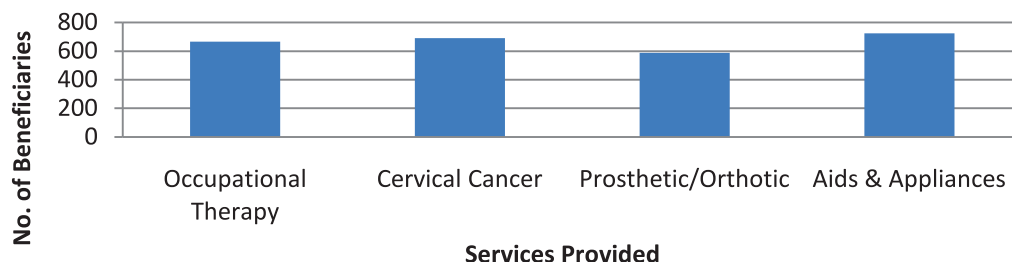

### PROSTHETIC & ORTHOTIC AIDS DEPARTMENT

The unique aspect of the Prosthetic section lies in the fact that all aids and appliances are produced by cancer victors. Different types of breast prostheses, cervical cancer kits, jaw stretcher keys, limb prostheses and colostomy sets are made at this one of a kind workshop and are sold to patients all over the country at a nominal cost. They are provided free of cost to the underprivileged.

The department made and supplied Orthotic and Prosthetic Appliances worth **Rs.10,65,979/-** during the year to various hospitals and individual patients across the country and provided Occupational Therapy, counseling and training to many cancer patients.

<i>Occupational Therapy</i>	: 667
<i>Cervical Cancer Rehabilitation kit</i>	: 690
<i>Prosthetic/Orthotic Appliances</i>	: 588
<i>Aids &amp; Appliances for disabled</i>	: 723

## SELF RELIANT SURVIVOR PROJECT supported by GSK

**Our mission:** *To help the families to become self reliant*

Cancer patients come to Mumbai from all over the country for treatment at TMH. For many of them it is a life of hardship with no place to stay and no means of sustenance. The Self Reliant Survivor Project of ICS supported by GSK helps such families to live with dignity and to learn a new skill for earning a livelihood.

Patients or their dependents are trained in tailoring for up to six months. This enables them to return to their villages with a new source of income for the family. During the training they are provided a daily stipend, meals, reimbursement of accommodation and travel expenses, food supplements and rations for the month. The biggest gain is to be able to live with dignity while the patient is under treatment and to learn a new skill.

<i>Amount spent</i>	<b>: Rs. 21.44 lakhs</b>
<i>Cancer patient families touched</i>	<b>: 131</b>

# PROFESSIONAL EDUCATION

---

## INDIAN JOURNAL OF CANCER

---

The Indian Journal of Cancer, the first indexed oncology journal from India, was established in 1963. It is still the foremost periodical, serving the needs of all the specialties of oncology in India. Its international repute is recognized by its indexing with most bibliographic databases including MEDLINE, Index Medicus, EMBASE and Biological Abstracts. The journal is the official publication of the Indian Cancer Society, the Indian Society of Oncology (ISO) and the Indian Cooperative Oncology Network (ICON). The editor in Chief Dr. Purvish Parikh is aided by a very illustrious editorial board comprising of renowned oncologists from all over India.

The authorship as well as the readership of Indian Journal of Cancer has expanded beyond the boundaries of the country. Annually more than 5000 copies of the journal are distributed. Apart from journal's own website, the internet issue of the journal attracts more than 5000 visitors per month from all over the world. The journal utilizes most advanced tools for its management including an electronic system for manuscript submission and review.

## SYMPOSIUM

---

The “**Advances in Breast Cancer 2014**” Symposium was held from 10 – 12<sup>th</sup> October 2014 in Goa. This state of the art meeting was spear headed by the Indian Cancer Society (Educational Program), in association with the Tata Memorial Hospital (WCI) and GOKARMA Oncology Association (Goa, Karnataka and Maharashtra). It was chaired by Dr. Vinay Deshmane (ICSD), Dr. Rajan Badwe (TMH) and Dr. Shekhar Salkar (GOKARMA).

The last 20 years have seen rapid progress in our understanding and management of Breast Cancer. There have been advances in all aspects viz. This has compelled a change in the way Breast Cancer is managed today and made it a multidisciplinary specialities. The aim of this Symposium was to bring together, for the first time in India, all the different specialities of Pathology, Radiology, Surgery, Medical treatment and Radiation therapy in a major multidisciplinary meeting the **Indian Cancer Society “Multidisciplinary Breast Course”, the first of its type in India**. This led on to the Multidisciplinary Symposium, where over two and half days all major pertinent topics related to Breast Cancer were discussed.

## UGAM: VICTORS OF CHILDHOOD CANCERS

---

Ugam is a voluntary support group which has been formed by Childhood Cancer Survivors. The Ugam group functions under the esteemed guidance of Dr. Purna Kurkure, In Charge, Pediatric Oncology Division & ACT Clinic, at Tata Memorial Hospital, Mumbai. Ugam is the youngest unit of the oldest and the most prominent NGO, the Indian Cancer Society, under its survivorship programme. Ugam means “To Rise” underscoring their determination to rise above all obstacles in life and be victors. Ugam was formed on 07 June 2009.

### Educational Support

- Ugam supports the education of the cancer children by providing ICS education scholarship, Kapil Chawla Educational fund (CanKids, Delhi), Yashvant Rao Chavan University Scholarship and the Tata Memorial Hospital Scholarship.
- Ecole Mondiale World School conducts English and computer lectures, once a week, for these cancer survivors.

### Awareness and Fund Raising

- During various events, Ugam members perform skits telling the audience the importance of cancer prevention.
- Ugam does fund raising by participating in various events like Race of Hope, Mumbai Marathon, Relay For Life and at events held at ICS.
- Awareness campaign and fund raising done during Dahi Handi festival, helped Ugam in raising an amount of Rs. 15,001/-.

### Counselling

- Ugam organizes counselling session for parents and a doubt solving session for patients, which motivates the patients and gives a new hope for living this life. Ugam conducts workshops for children and also provides marriage counselling for the cancer survivors.

The Ugam family

## CANCER INSURANCE SCHEMES

---

- **New India Assurance**

The ICS Cancer Insurance Scheme was the first Cancer Insurance Scheme in India, launched in 1985. It continues to be popular and has received good patronage during the year.

Members can opt for Cancer Insurance coverage of Rs. 50,000/- or Rs. 2 lakhs at very nominal premiums. This scheme is implemented in collaboration with the New India Assurance Co. Ltd.

During 2013-14, 69 new members registered for the ICS Cancer Insurance Scheme.

Sr. No.	Type	Coverage of	No. of Members
1.	Well Wisher Member (New Members)	2,00,000/-	69
2.	Well Wisher Life Member	2,00,000/-	274
		50,000/-	84
3.	Well Wisher Member	2,00,000/-	740
		50,000/-	130
		<b>Total</b>	<b>1297</b>

The ICS Mobile Cancer Detection Centre distributes forms for the above mentioned Cancer Insurance Scheme at all its camps, thus encouraging people to take advantage of cancer insurance by payment of a very nominal premium.

- **Raheja QBE Cancer Insurance Policy**

Indian Cancer Society initiated this scheme to provide coverage upto 10 lakhs through Raheja QBE General Insurance Company Ltd.

Should cancer be detected, this Cancer Insurance Policy provides substantial financial support so that you can be adequately treated in time, allowing you not only to lead a normal life after cancer but one with lesser worries. This Cancer Insurance Policy relieves you of the crippling costs of curing cancer.

Many people have taken the benefit of this scheme.

## ICS – ST. JUDE INDIA CHILDCARE CENTRES

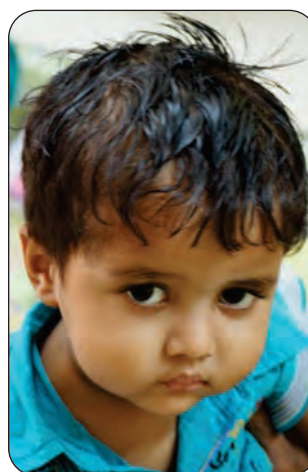

ICS-St. Jude India ChildCare Centres aims at helping the children complete their treatment for cancer. Along with accommodation we provide the children with healthy nutritional and emotional support. The families are provided with ration and supplements on a weekly basis. Utmost care is taken to ensure that the families are well guided at the hospital and at various trusts where they seek financial help. Different activities are conducted for the children and their parents.

During the year 2014-15, ICS – St. Jude India ChildCare Centres admitted a total of 186 children who are suffering from cancer along with their parents, at the centres in Parel set up in collaboration with the Indian Cancer Society.

Centres		New Admission	Returnees	Total
M-2 & M-3	Male	55	81	136
	Female	22	28	50
	<b>Total</b>	77	109	186

## BRANCHES

---

### DELHI BRANCH

---

#### Awareness and screening – Jagriti

Awareness Talks are the prime responsibility of Jagriti. Talks were given at Schools, Colleges & Institutes. Awareness Talks to Women groups in various places included wives of Defense Personnel in Delhi. Volunteers also gave Talks to Gender Resource workers at Delhi Secretariat. Talks were undertaken at Depots of Delhi Transport Corporation (DTC) during the shift changing hours to reach out to more conductors, drivers and other staff. 12 Depots (around 600 Staff) were addressed.

<i>Camps</i>	: 129
<i>People touched</i>	: 10509

#### Cancer Screening - Cancer Detection Centre & Mobile Medical Vans

ICS Delhi provides preventive screening services through its Cancer Detection Centre, Babar Road as well as mobile outreach services for the past thirty years. A new mobile unit Asha Kiran equipped with digital mammography and X-ray has been inducted to the ICS Delhi fold as a CSR initiative of EIL which has increased ICS Delhi's outreach. An ambitious project called ICS - Connect has been initiated by ICS Delhi where a tele-radiology platform has been provided for our mobile units and the data for screened individuals is maintained in digital form for easy access.

<i>People touched</i>	: 9471
<i>Cases for further investigation</i>	: 371
<i>Cases found to be cancerous</i>	: 29

#### Emotional and Financial support – Cancer Sahyog

Cancer Sahyog is the emotional support arm of Indian Cancer Society, Delhi. The survivor volunteers working with patients and families across Delhi and NCR offer its most significant contribution.

<i>People given financial help</i>	: 60
<i>Amount spent</i>	: Rs. 25,44,820
<i>People counselled</i>	: 5101

#### Prashanti

A wellness unit of Indian Cancer Society. Prashanti helps in mainstreaming cancer survivors back to normal living by offering yoga, laughter therapy. For women who have undergone mastectomy prashanti offers breast rehab clinic by providing and fitting women with bras and body forms at no cost. We provide two bras and one body form for every woman who has undergone a mastectomy.

## BANGALORE BRANCH

---

The Karnataka Chapter of the Indian Cancer Society (ICS) was started by Mr. Kishore Rao in 1986.

*Activities of Bangalore branch include:*

- create awareness across Karnataka so that certain types of cancer can be prevented and when it occurs, it is detected at an early stage
- detect cancer at an early stage at its cancer detection centre and at detection camps; specifically focusing on the needy and low-income groups
- provide counselling and emotional support to cancer patients, their families and care-givers

### **Cancer Awareness**

Indian Cancer Society, Karnataka, has been conducting Cancer Awareness Sessions with the objective to reduce cancer instances and mortality rate through prevention and early detection. The session is organized for 60 minutes.

<i>Camps</i>	: 15
<i>People touched</i>	: 1275

### **Early Cancer Detection**

ICS believes that in most cases “Cancer is curable when detected early”. A significant percentage of these incidences and associated mortality can be prevented. ICS has been conducting Cancer Detection Camps in Bangalore and Rural Karnataka. On an average 150 people are screened at each camp. Focus is on early detection of Breast, Cervical, Oral and Lung Cancer.

<i>Camps</i>	: 12
<i>People touched</i>	: 1546
<i>Cases for further investigation</i>	: 20

### **Emotional Support for people affected by cancer**

ICS Bangalore has a team of trained counsellors, which includes cancer survivors and care givers. They provide emotional support to cancer patients and care-givers and equip them to tide over the difficult times in their fight against cancer.

### **Counselling service offered includes**

- individual one-to-one sessions with the cancer patient
- sessions together with cancer patient’s partner, relative or caregiver
- telephone-based sessions if the cancer patient is unable to attend
- session at cancer patients home if they are unable to attend

**World No Tobacco Day celebrated at Mantri Mall, Bangalore for the month of May**

**Cancer Detection Camp**

## KOLKATA BRANCH

Indian Cancer Society, Kolkata Branch has done sterling work in spreading awareness about Cancer through Awareness Camps and Detection Programmes during the year 2014 - 15

Following table shows the statistics for the year 2014 – 2015

	Awareness	Detection	Cancer Detection Centre	Free bed facility
<b>Camps</b>	54	46	-	-
<b>Beneficiaries</b>	13881	10118	1337	179

Two major events were organised by ICS Kolkata on Cancer Awareness and Survivorship and Cancer Medical Education in November 2014 and October 2014. The CME programme attended by leading oncologists of Kolkata and Mumbai was on recent developments on detection and management of early Gastro Intestinal Cancer and Antibiotic Stewardship in India. The Cancer Awareness and Survivorship programme was on talks by leading oncologists on detection and management of early cancers followed by an Interactive Seminar on 'Cancer and Community.' Both the programmes were attended by large number of people from cross sections of society and were greatly successful.

## NAGPUR BRANCH

Indian Cancer Society, Nagpur Branch was established in 1987. It conducts cancer awareness programmes with the help of videos, pamphlets, brochures and lectures of Medico-Onco expertise. It also conducted Cancer Detection Camps with the help of different NGOs. ICS Nagpur successfully runs a Cancer Detection Centre at the Mure Memorial Hospital.

<b>Awareness</b>		<b>Detection</b>	
<i>Camps</i>	: <b>16</b>	<i>Camps</i>	: <b>5</b>
<i>People touched</i>	: <b>4000</b>	<i>People touched</i>	: <b>160</b>
		<i>Cases for further investigation</i>	: <b>26</b>
		<i>Cases found cancerous</i>	: <b>01</b>
<b>Counselling provided to 20 patients</b>			

ICS Nagpur observed the following days in order to spread cancer awareness among the locals:

- World Health Day 07 April 2014
- World No Tobacco Day 31 May 2014
- National Cancer Rose Day 21 September 2014
- Breast Cancer Month October 2014
- National Cancer Awareness Day 07 November 2014
- World Cancer Day 04 February 2014
- International Women's Day 08 March 2015

Various exhibitions, awareness talks, cancer detection camps were held on these days.

During the year 2014- 2015, 10 cancer awareness programmes were organized under the ICS – BIOCON Cancer Awareness Project
