

A big Thank You from all of us

ICS CANCER CURE FUND

We are happy to inform you that, the "Indian Cancer Society's Cancer Cure Fund (ICS Cancer Cure Fund)" has completed a year. Donations received from investors in the "HDFC Debt Fund for Cancer Cure" constitutes the ICS Cancer Cure Fund which is used to fund the cancer treatment of needy patients. A total amount of Rs.665.24 lacs. has been received as donation from HDFC AMC on behalf of the investors till date.

Classification of Patients as per Location

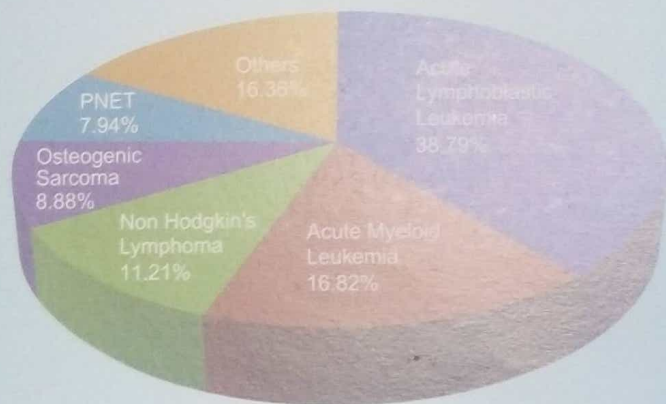

This donation to Indian Cancer Society (ICS) has made an invaluable difference in the lives of many needy cancer patients.

We are pleased to inform you that since October 2011, the donations received from the investors of the HDFC Debt Fund for Cancer Cure, have been used to grant financial aid for medical treatment to 214 patients aggregating to Rs. 631.19 lacs. Of these, more than 80% of the patients are less than 30 years of age. Timely financial assistance for medical treatment can indeed change their lives forever. As it is evident from the chart, patients from all across the country are being supported.

HOPE FIGHTS CANCER

Fighting Cancer Since 1951

The diagnosis of Cancer is often associated with gloom and despair. Many patients feel they have lost their battle the moment they are given the cost estimate. Its not mental strength or will to fight that is lacking. Its the fact that their limited resources are no match for the expensive treatment that defeats them - leading to anguish, pain and loss of hope.

Most turn to prayer for help..... Approaching God in the only way they know.

And help arrives for them. These are the stories of how Indian Cancer Society's Cancer Cure Fund has the privilege of being the agent of God, of rekindling hope in these cancer patients, in empowering them to receive the best possible curative treatment, in transforming their lives!

Miss Ankita Talukdar, a five year old girl from West Bengal, was diagnosed with Acute Lymphoblastic Leukemia, a type of blood cancer. Her father, works as an assistant in a garment shop and earns Rs.60, 000 annually. They went to Tata Memorial Centre Kolkata where the cost estimate was of Rs 3.5 lacs. The family could not raise that much, even after deciding to sell their house. That is when the Indian Cancer Society's Cancer Cure Fund stepped in. With the promise of complete financial adoption their worries vanished. Ankita is on curative treatment since January 2012, is doing well and her family express their gratitude to ICS. Her father says, "if not for your help, we would have lost our daughter. Thank you very much".

Mr. Chandrashekhar Sharma, a thirty five year old man from Madhya Pradesh thought that life had come to an end, when he was diagnosed with Acute Myeloid Leukemia, another type of blood cancer. He works as a peon in a court with an annual income of Rs 90,000. He wondered where he would get the Rs. 5,00,000 required for his treatment. That is when ICS stepped in. Today he is taking treatment at Rajiv Gandhi Cancer Institute, New Delhi and thanks all the people who are helping him fight his Cancer!

Miss Arathy V., a nineteen year old girl from Kerela, was diagnosed with Acute Promylocytic Leukemia (APML) at the Regional Cancer Centre, Tiruvananthapuram. Her fathers is a driver and mother a homemaker. With another daughter to look after, the parents were rapidly loosing all hope. The support of Rs. 70,000 from the Kerela State Govt. was woefully inadequate. By receiving the balance from ICS Cancer Cure Fund there was total transformation for the family. Today the treatment is progressing as planned and Arathy is doing fine. She and her family are grateful to ICS Cancer Cure Fund for all the help and pray to God for a speedy recovery.

Mr. Rajendra Vilas Jagtap, a twenty two year old male from Maharashtra was diagnosed with Non Hodgkin's Lymphoma in October 2011. Counseling from the social workers strengthened his belief in God. He initially mortgaged his wife's jewelry - but that only covered the cost of his investigations. It was only after the sanction of Rs. 3, 00,000 from ICS Cancer Cure Fund that his treatment could be commenced at Tata Memorial Hospital, Mumbai. He is now doing so well that he has resumed working as a peon in a transport company. He calls ICS regularly to give a follow up of his medical status.

Miss Urmilaben Prajapati, another nineteen year old girl from Rajasthan was diagnosed with childhood type of solid tumor, PNET. Her father works as a laborer in a construction site and has an annual income of just Rs. 30,000. Spending Rs. 2.2 lacs for her treatment was impossibility. Thanks to ICS Cancer Cure Fund, she started treatment at Gujarat Cancer and Research Institute, Ahmedabad. She underwent surgery followed by chemotherapy. Today she is doing so well, that her father is always smiling. He said "I am too small to talk to big people but I do want to thank ICS and all the doctors for this great help!"
