**HDFC CHARITY FUND FOR  
CANCER** *cure*  
(A close-ended scheme)

In February 2011, Indian Cancer Society in association with HDFC AMC launched 'HDFC Debt Fund for Cancer Cure', a close-ended capital protection oriented income scheme to provide financial assistance to the needy cancer patients for their treatment by tapping those investors who would be willing to donate part of the dividend or entire dividend declared, if any, under that scheme for this purpose. The money raised through donation of dividend income by unit holders of this fund was utilized by ICS to fund the treatment costs of needy cancer patients under Indian Cancer Society - Cancer Cure Fund project (ICCF).

ICCF has transformed the lives of many needy cancer patients from all over the country. ICS has implemented ICCF at a pan India level covering over 29 states and has granted financial assistance for cancer treatment of over Rs. 76 crores to 4675 patients, till date. Of these 60% of the beneficiaries are less than 30 years of age, which means more fruitful life ahead, more birthdays to celebrate!

Aairah was diagnosed with ALL cancer when she was 9 months old. She was treated at Tata Memorial Hospital, for which they had to stay in Mumbai for 8 months, as a result her father lost his job. Timely financial support from their family & ICS helped them to complete her treatment. She visits the hospital every 3 months for a regular checkup. Her parents have decided that once they are financially stable they would want to help other patients by donating to ICS in the way they were benefitted.
